

ROPLASTO®

Member of BESAGROUP

ROPLASTO designs, develops and manufactures profile systems for PVC windows since more than 50 years. As one of the trailblazers for PVC window production in Germany ROPLASTO offers today a complete range of products for the manufacture of windows and doors made from PVC.

ROPLASTO operates in many European countries with own branches, distribution offices and storage facilities.

The head office is located in Bergisch Gladbach, Germany, with the system development, sales management and tool manufacturing, compounding and extrusion.

Dedicated production lines for the foiling of the profiles give ROPLASTO a maximum of flexibility for the production of high quality decor profiles.

Roplasto is a member of the BESAGROUP. This group consists of several manufacturing companies with different product ranges. For further information please visit www.besagroup.com.
